

Choose Life Center News, January, 2012

What a start of a new year! Clients that came to our office in January have encouraged our hearts. A few of them said that they came because someone has told them a good word about our services. And that is exactly what we want and we worked in previous years on the quality of our services. Also in January we already had 12 phone calls and e-mails concerning crisis unplanned pregnancy, all very young girls. With many of them we have talked for a long time, sometimes every day and since they are not from Novi Sad we would usually send them by post our material, brochures and DVDs. We pray for their decision! We are looking forward to all that God is going to do through us till the end of this year.

Sanctity of Human Life day in our churches

Since in Serbia we do not have Sanctity of Human Life day, in the third week of January, we have joined our brothers and sisters from SAD and both Vesna N. And I had the opportunity to speak in our churches. Praise the Lord! One of our aims is definitely raising awareness of the value of Human being from the conception, so we treasure this opportunity and we believe that it will become something that will be often spoken about in our churches.

WINTER YOUTH CAMPS

We were guest speakers on two youth camps in January. It is so encouraging that we are getting invited from different churches and organizations. What was special about one of the camps was that we spoke to a big group of youth, and most of them are refugees from Kosovo, and they have no church background.

Serious topic – good listeners!
Here there were present young people from four different small churches.

A client story

What a privilege for us is to help young moms. This girl is only 18 years old, and she already has two children ages two and one - and she is pregnant again. Those were all unplanned pregnancies. Her partner is not even living with her, he is from another city. She lives with her two children in 47 m2 with her mom and sister and her brother's family (10 people altogether) she is very gentle and we have talked to her about her plans, dreams. We just tried to encourage her. She has never even started high-school education. We are trying to help her start dreaming again. She knows now that she can come to us for support, emotional, material...
